Course Overview

The National Community Development Association (NCDA) is pleased to announce the delivery of a two-day course on implementing CDBG Disaster Recovery funds. Communities who experience a Presidentially declared disaster may receive CDBG-Disaster Recovery funds. CDBG-DR comes with its own processes and requirements, different from CDBG Entitlement funds. It also comes with its own challenges and opportunities. This course will cover the CDBG-DR allocation process, pre-implementation requirements, and program implementation requirements, including reporting and documentation. It will also explore CDBG program designs, best practices and issues, and augmenting CDBG-DR with Entitlement CDBG funds.

The course will include time for discussion of local issues. Participants will receive copies of the slides and a training manual. There will be a few in-class group exercises.

When designing the program, NCDA kept in mind the following potential participants:

- CDBG practitioners from Entitlement or State programs that have experienced a disaster and may receive, or have already been allocated, CDBG-DR funds.
- Subrecipient and partner organizations in communities impacted by disasters.
- Any CDBG practitioner who wants to be more knowledgeable in this area.
