Course Overview

The National Community Development Association (NCDCA) is pleased to announce the delivery of a three-day course covering the management of Community Development Block Grant (CDBG) subrecipients. A CDBG grantee has much latitude in how to use subrecipients, but this course focuses on subrecipients engaged in delivering public service activities. The management and oversight principles are applicable for all Consolidated Plan program subrecipient activities.

The course follows the CDBG subrecipient management process linearly, starting with establishing priorities in the Consolidated Plan and concluding with HUD's role in overseeing the grantee's relationship with its subrecipients. Participants will be introduced to important CDBG subrecipient management concepts mandated in 2 CFR 200 with an emphasis on internal controls and financial management requirements, followed by a review of portions of 24 CFR 570 pertinent to meeting national objectives and delivering public service activities. Participants will discuss various approaches to selecting subrecipients; developing and evaluating applications; and delivering effective subrecipient training and technical assistance. Participants will work through the process of building fully compliant subrecipient files, setting up subrecipient activities in IDIS, tracking subrecipient progress, then implementing the jurisdiction's monitoring plan. Participants will delve deeply into HUD's Subrecipient Monitoring Exhibit 3-16 introduced in February 2017.

Course participants will receive a comprehensive manual that covers all stages of the CDBG subrecipient management process including templates for checklists that can serve as models for developing a local procedure manual.

A number of exercises are built into the course. Some are very brief, designed to be sure participants understand a concept before moving on. Several go deeper into the process of selecting, managing and monitoring subrecipients. All are based on real-life experiences of NCDCA member-practitioners.

NCDCA's CDBG Subrecipient Management course has been developed primarily for practitioners with three or fewer years of experience. While not a course prerequisite, it is suggested that course participants complete NCDCA's CDBG Basics: Training for Practitioners before taking this class.

Class schedule is from 9am - 4:30pm each day of class, with a break for lunch.
